*Transitioning from a Faculty Publications  
Database to an Institutional Repository*

**Carrie Levinson, Touro College**

*The Faculty  
Publications  
Database*

## Included

- Abstracts published in scholarly/academic journals.
- Conference/symposium articles in published proceedings
- Articles in scholarly/academic/professional journals
- Bibliographies
- Books (authored/edited)
- Book chapters (authored/edited)
- Book/film reviews in academic publications
- Creative works – curated or published; not self-published (poetry, novels, short stories, published plays, art exhibits, musical scores and choreographed dance, audiovisuals)
- Encyclopedia entries (excluding Wikipedia)
- Evidence-based publications in peer-reviewed journals
- Letters to the editor, if published in peer-reviewed journals
- Monographs
- Patents
- Published dissertations (beyond ProQuest Dissertations and Theses)
- Technological/software products (e.g. apps, if published through iTunes or Google Play, not self-published)
- Test reviews in Mental Measurement Yearbooks
- Textbooks
- Translations of literary or scholarly work(s) from and into English, if translations are by the TCUS faculty member

The repository is a service of the Touro College and University System libraries. Research and scholarly output included here has been selected and deposited by the individual university departments and centers on campus. Touro Scholar includes materials from 2012 to the present. For works older than 2012, please visit the [Touro College & University System Faculty Publications Database](#).

Author information

### Abstract

**AIMS:** To determine the relationship between ABC goal attainment, depression, and health-related quality of life (HRQoL) among a national sample of patients with type 2 diabetes (T2DM).

**METHODS:** A retrospective, cross-sectional analysis was performed examining 808 non-pregnant patients  $\geq 20$  years old with T2DM from the National Health and Nutrition Examination Survey (NHANES) 2007-2012. ABC goals were defined as HbA1c < 7%, BP < 130/80 mm Hg, and LDL-C < 100 mg/dL. Patient characteristics associated with ABC goal attainment were examined.

**RESULTS:** Overall, 23.7% of participants achieved simultaneous ABC goals. Severe depression was significantly associated with lower rates of ABC goal attainment compared to those with no depression (5.0% vs. 25.4%,  $p=0.048$ ). ABC goal attainment rates were lower among females, Hispanic and non-Hispanic black minority groups, and patients with a duration of diabetes over five years, while increased visits with health care professionals were significantly associated with meeting all three ABC goals for patients with T2DM.

**CONCLUSIONS:** The relationship between simultaneous ABC goal attainment, depression and HRQoL is complex. Patients with T2DM unable to meet ABC goals may benefit from increased contact with health care professionals.

# TOURO SCHOLAR WORKFLOW

I am working with [faculty name] of the Touro College and University System (TCUS) to deposit electronic versions of [their] works in our institutional repository (<http://touro scholar.touro.edu>) for educational and research purposes.

I am writing to request permission to deposit an electronic version of the following article:

[insert citation here]

This request is for non-exclusive, non-commercial use only. Copyright notice, citation of original publication data, and a link to your site will be given.

Our repository is the institutional archive, maintained at the University Libraries, for research and scholarship emanating from the Touro College and University System. A single electronic version will be archived and become available for viewing by visitors to the Libraries' Touro Scholar site. For more information about the repository or its policies, please contact me at the email or phone below.

May we have permission to deposit an electronic version of this article? If so, may we use the publisher's PDF?

Thank you for your consideration.

Carrie Levinson

Thank You
